REMARKS

Applicants appreciate the examination evidenced by the Official Action mailed February 14, 2005 (hereinafter the Official Action). In response to the Requirement for Election of Species, Applicants respectfully elect Species I including Claims 1 – 13. However, Applicants respectfully disagree with the assertion in the Official Action that no claim is generic as, at least, Claim 1 is generic to all disclosed species. In particular, Claim 1 includes recitations of "nitriding" and "post treating" (such as an anneal treatment, an oxidizing treatment of the like), which are reflected in each of the flowcharts shown in Figures 2 – 5. Accordingly, at least Claim 1 is generic to all species.

Applicants respectfully request the examination of the elected species and the allowance of all claims in due course. If any informal matters arise, the Examiner is encouraged to contact the undersigned by telephone at (919) 854-1400.

Respectfully submitted,

Robert N. Crouse
